

REMINDERS:

- If you owe the IRS or states money for 2021 taxes, those taxes are due on the original due date of April 18th. Even if your tax return has been extended, the payment is still due on the original deadline. To avoid penalties and interest, we can assist with making estimated payments ahead of the April 18th deadline or with an extension.
- If you received any of the 2021 Advanced Child Tax Credit payments (monthly and some lump sums), we will need a copy of the IRS that shows your total payments of the advanced child tax credit. You can also find the amount online: <https://www.irs.gov/credits-deductions/child-tax-credit-update-portal>
- Reporting the \$1400 in stimulus payment (April of 2021 or later): If you did not previously qualify for this payment, you can claim it as a credit on the 2021 tax return if your 2021 numbers allow.
- Although the last few years have proven to be quite a wild tax ride, the IRS has never issued media warnings like the ones we're seeing this week. Like always, we will keep you posted on all updates and changes as they come.
- Although we have many options to utilize for your tax preparation, we encourage you to try logging in to our unique Intuit Link Portal space made just for you. If you are a returning client, you should have received your invitation via email. This shared space stores all our Q&A's, documents/tax returns shared between us, and allows you access to the past year documents/tax return copies as well.
- When you send us ANY communication, we strive to respond within 2 business days at the MOST. Please feel free to hound and bug us as much as possible via phone/email if you feel we are not responding to your communication/s. We appreciate it!
Please let us know with any questions - we look forward to connecting and working with you.

Many Blessings -

Thank You,
