January of 2023: The IRS will open e-filing again "at some point" in January. Gather all your 2022 numbers and submit via Intuit Link (mail/drop-off/SafeSend are also options, but not as useful as Intuit Link). Most tax documents should be mailed or made available for you by January 31st. We do not need to wait for filing to open to prepare your taxes. Businesses are encouraged to send P&L's/Balance sheets as soon as possible so Cressey can get a head start on your return during January.

January 9th, 2023: The IRS opens the "Get an Identity Pin" tool again – so that nobody else can e-file under your social security number (if you have one, be sure to include that with your tax documents/info for tax prep) --
<https://www.irs.gov/identity-theft-fraud-scams/get-an-identity-protection-pin>

January 17th, 2023: Farmers and fishermen: Pay your estimated tax for 2022. Use Form 1040-ES. File a new Form W-4 if you claimed exemption from income tax withholding in 2022. If you make quarterly estimated payments, they are due today.

January 31st, 2023: File Form 1099-NEC for nonemployee compensation paid in 2022. Employers: Furnish Form W-2 to employees who worked for you in 2022.

February 15th, 2023 (approximate): This is when most investment 1099 packets will become available, and when the IRS will start to process tax returns that include the Earned Income Credit. Filing can happen prior to this (and you secure your "spot" in line), but the IRS usually pushes back the processing of these higher-refund returns. You can usually expect the refund to post within a couple weeks of the processing.

February 28th, 2023: New clients need to send most tax documents and information by this date in order to be on Cressey's tax desk for completion by the April 18th deadline. We will work with new clients after this date to file extensions and assist with any necessary tax payments that need to be made, but we will save the full preparation and finalization for May when there is enough time to give all clients the attention they deserve.

TAX EXTENSIONS =

MORE TIME TO FILE/NOT MORE TIME TO PAY!

- We e-file Extensions free of charge
- We can help estimate your taxes due
- Reach out ASAP if you will need to pay and need more time to gather documents and information
- Deadline Extends to October 16th for individuals/Corps and September 15th for all other business returns

March 15th, 2023:

** Current CRTS clients need to send most tax documents and information by this date to be on Cressey's tax desk for completion by the April 18th deadline. We will work with clients after this date to file extensions and assist with any necessary tax payments that need to be made, but we will save the full preparation and finalization for May when there is enough time to give all clients the attention they deserve.

** If you must wait for certain documents to be ready to file your taxes (like investment 1099's and K-1's), please send the other documents and information first. We can work with you on all the other areas of the tax return and then hold for those documents to become available.

** Business Returns for S-Corporations and Partnerships are due. We file extensions for current clients that have not been filed by this date (or new clients when we have the chance), and this moves the business filing deadline to September 15th. This does not extend the taxpayer deadline to pay the taxes – the April 18th deadline.

** File Form 2553 to elect S Corp status beginning calendar 2023.

WINNINGS

- Gambling winnings produce a W2G - but keep track of what you lose as well, it might help offset the tax liability
- PRIZES of money and goods/vacations produce a 1099-MISC, are 100% taxable at fair market value, and have no deductions available against the income
- Be sure to utilize tax planning with Cressey!

RETIREMENT SAVINGS & TURNING 72?

- If you have any deferred tax retirement accounts (Traditional IRA/401(k)), you are required to start taking money out of the accounts by the Dec. 31st of the year you turn 72! It's called an RMD/Required Minimum Distribution and comes with a hefty 50% penalty for NOT taking enough money out in time.

Besides inherited tax-deferred accounts, most of your inheritance should be tax-free. However, if you are set to inherit over \$12.92 million, be prepared to pay taxes on anything over that amount!
